Specimen report:	3

About CoA:

A certificate of analysis (CoA) is a document attesting that specific goods have undergone specified testing with specified results. This certificate can be issued by a certification authority (appointed by the exporter or importer) or at the exporter's own laboratories. The analysis can be performed in the factory or warehouse of the exporter, or on the place where the product is loaded for international transportation. Usually the analysis is done on samples representing a certain percentage of the total of the goods sold.

Details to be mentioned in CoA:

Following details needs to be specified in MSDS report:

- Company Name
- Identification of Product / Product Name
- Test Conditions
- Test Parameters
- Specifications or Requirements
- Results (qualitative and / or quantitative)
- Approval Signature and Date
- Relevant document traceability references (e.g. document number, revision, etc.), etc.

Specimen report:

Specimen CoA has been provided below for reference:

Horizons International
101 First Avenue
Ourtown, CA 91919

CERTIFICATE OF ANALYSIS

Date Printed: 07-Mar-2018
Customer: All AA Casting
Shipping Address: 140 Ave E, Uptown CA 12345

Product: Plastic Flake for AB Product Group
Customer P.O.: PO12345AB
BOL #: BOL6789
Package Size: Rail Car

Microbiological: Commercially Stable

Serial/Lot Number(s)	Expire Date	Mfg Date
ABKK03	15-Feb-2022	12-Feb-2018

Test Completed	Unit of Measure	Result	Specification
Color	Scale	55.31211	From 54.80000 to 57.60000
IV	DL/g	0.922	From 0.0894 to 0.994
Melt Point	Degree F	376	Not less than 372
Moisture %	Percent	7.9214	Between 7.8880 and 8.0224
Country of Origin		U.S.A.	North America Only
